### Important information

Copies of the Prospectus, the Key Investor Information Document (KIID), the Supplementary Information Document (SID), and application forms may be obtained, free of charge, from Rathbone Unit Trust Management Limited.

The use of derivatives for investment purposes may increase the volatility of a sub-fund's net asset value and may increase its risk profile.

Emerging markets are volatile and may suffer from liquidity problems. Changes in rates of exchange between currencies may cause the value of investments to decrease or increase.

Details of tax levels and reliefs may change in the future. The value of any tax relief depends on individual circumstances. If you have doubts about your tax position, or the suitability of this investment, you should seek professional advice.

As the Manager's annual fee is taken from capital, that capital may be eroded or growth restricted to the extent of the charge and that, while there may as a result be a reduction in liability for Capital Gains Tax, there will be some increase in Income Tax liability for tax paying shareholders.

### Rathbone Multi-Asset Strategic Growth

**Portfolio Benchmark:** Our benchmarks are calculated on the rate of change of the CPI index, over different time periods (e.g. if we were calculating year to date figures in January 2013, we would look at the percentage change from December 2012 to the end of January 2013). So we take CPI to the current value, and add on the 5% prorated over a year (roughly 0.42% per month). If the CPI Index benchmark were to fall, more than the amount pro-rata, the benchmark year-to-date will be negative, even though inflation as reported by the media (calculated specifically as a 12M rate of change), remains positive.

Source & Copyright Citywire: David Coombs is AAA rated by Citywire for his three year risk adjusted performance for the period 31.05.2014-31.05.2017.

Rathbone Unit Trust Management has achieved a Silver Rating in the Mixed Asset – Absolute Return sector by Citywire for their rolling risk-adjusted performance, across all management teams in the sector, over the period 31.03.2010-31.03.2017.

The 'Scopic Multi-Manager Portfolio Rating' shown was awarded following extensive due diligence and face to face manager questioning. It was arrived at by combining the ratings awarded for the individual research topics (summarised in the report, available at rutm.com) and weighting them according to a formula. All ratings are qualitative based.
